 A Viscount Group Company

Edition III

Tankmasta

Viscount Rotational Mouldings' (VRM) Tankmasta manufacture an extensive range of freestanding commercial and industrial liquid storage as well as chemical tanks to suit most situations.

Made from chemical resistant, food grade, LLDPE resin, our tanks are capable of handling product up to a specific gravity up to 1.6 and an operational temperature range from -18 degrees to +60 degrees celsius.

The cylindrical designs have capacities ranging from 115 litres to 25,000 litres while offering the structural integrity associated with one-piece construction and without vertical seams.

Tanks are moulded in a variety of coloured resins, the UV stabilized material allowing for both internal or external applications.

checklist:

Please consider the following information, as it will be required to supply a quotation and to fulfill an order. The positions of the roof access points are as per the diagrams on page 3. Larger manhole covers can be installed though this will be dependent on the structural integrity of the roof being preserved.

Dealer Name: *The primary contact person, who we receive the order from and invoice.*

Delivery Address: *Required for a quotation to calculate freight and if RTA permits would be required. Note: Freight not included unless stipulated.*

Customer Contact Details:

Contact name (preferably at delivery site) and contact telephone number - required for delivery confirmation.

Customer Name: *Not required for quotation but mandatory when an order is placed into our system.*

Mailing Address: *To forward order confirmation letter that states our internal order reference details.*

Tank / Vessel: *Tank code and size i.e. CT0200 20,000 ltr. Chemical Tank*

Quantity Required: *Note: Multiple tanks delivered simultaneously may improve transport efficiencies.*

Tank Colour: *Natural, Black or colour of material*

Required Delivery Date: *Anticipated delivery date or critical contractual requirements.*

Type Of Liquid / Product Being Stored - i.e Water

S.G. Rating: i.e. 1.0

Components / Fittings: i.e.

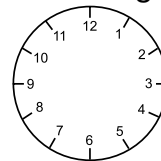

2 x 33TF0124 - 80mm Poly Compression Fitting

2 x 33TF0076 - 80mm PVC Ball Valve

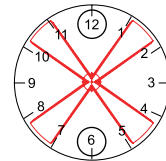

1 x 33TF0046 - PE Lid & Ring with breather

4 x 33TF0212 - Anchor Brackets

Locations of fittings:

Required placement of access hatch:

Special Transport Requirements: *i.e. Crane / delivery inside a building / low roofline, etc.*

Site Access Issues: *Includes site hours, access for vehicles, working at heights, specific OH&S requirements, site induction (red card) requirements or testing for certifications.*

Additional Comments:

round large tanks:

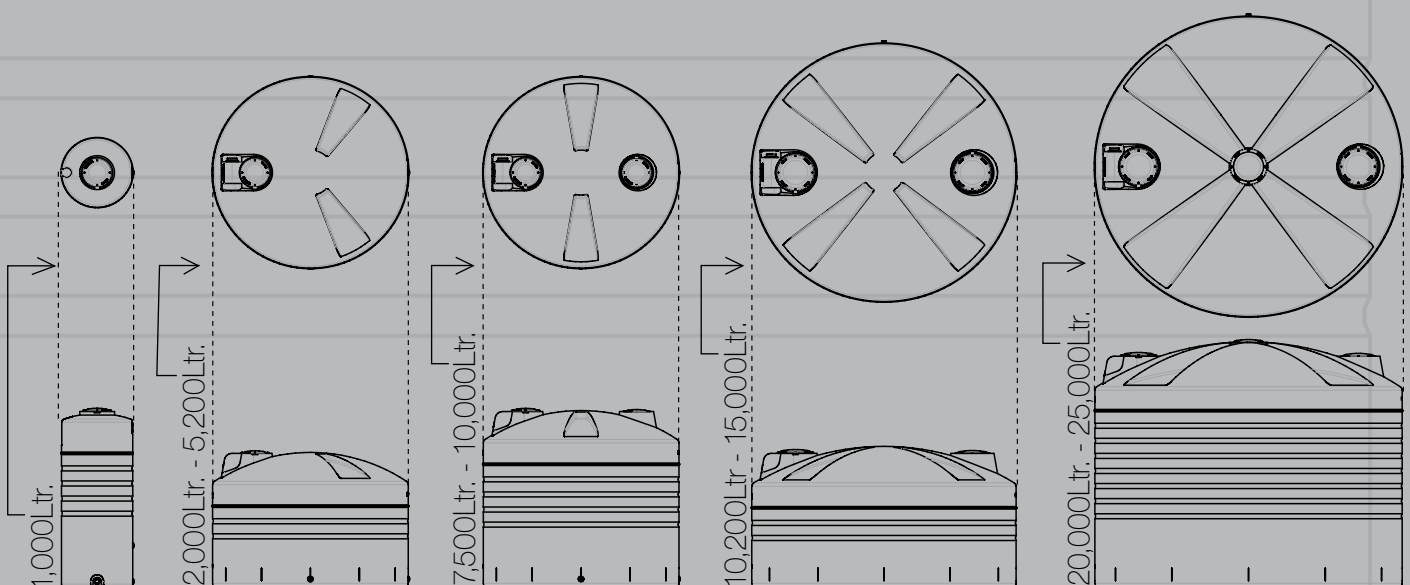

1.0-1.6 S.G.

Ranging from 1kl to 25kl, the design of VRM's commercial, industrial and chemical tanks is an extension of the criteria used when we developed our range on AS/NZS4766 certified tanks. As a result VRM's tanks share the same patented ADP roof support system eliminating the requirement for any type of internal roof support. Rated from a Specific Gravity (S.G.) of 1.0 (commercial and industrial tanks) to 1.6 (chemical tanks).

Note: The use of larger than standard fittings requires a thicker wall structure to maintain the tanks integrity. In these applications a chemical tank must be used.

product	code water - 1.0 S.G.	code chemical - 1.6 S.G.	capacity	diameter	total height
T2 round tank	TA0010	CT0010	1,000Ltr.	830mm	2100mm
T2 round tank	TA0020	CT0020	2,000Ltr.	1180mm	2100mm

T2 round tank	TA0250	CT0250	25,000Ltr.	3580mm	2960mm

Please note that all dimensions are nominal.

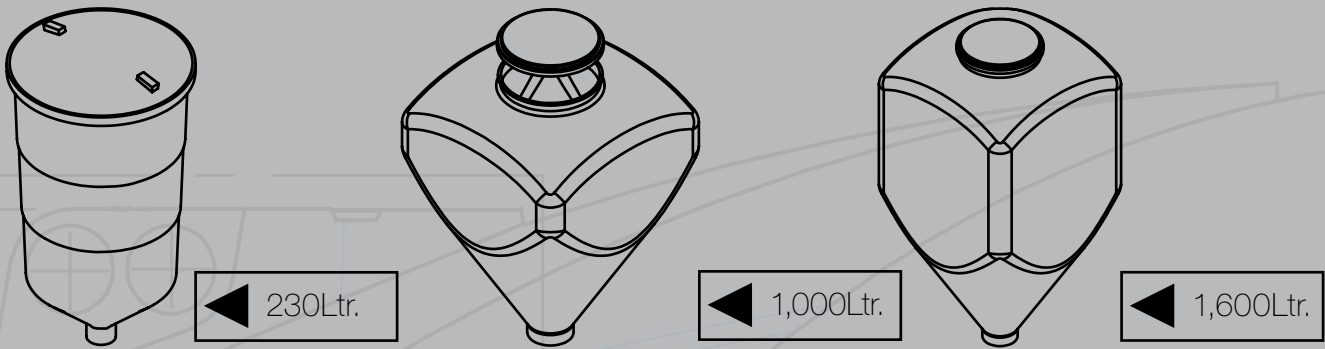

hopper skins:

1.0 S.G.

product	code	capacity	diameter	total height
hopper skins	CH1031	230Ltr.	630mm	1110mm
hopper skins	CH1722	1,000Ltr.	1090mm	1435mm
hopper skins	CH1721	1,600Ltr.	1090mm	2035mm

Please note that all dimensions are nominal.

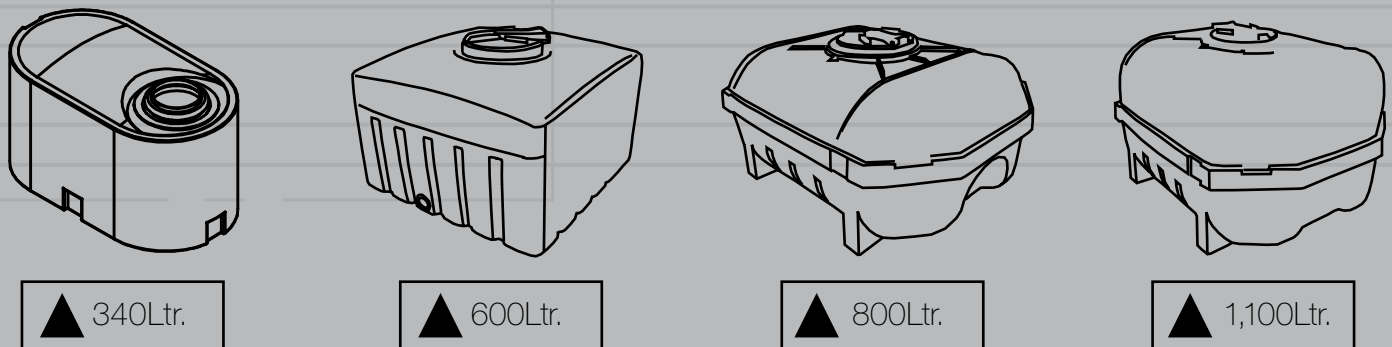

The hopper skins are available in three varying conical designs, capable of housing both liquids and powders and rated to an S.G. of 1.0 when supported in a correctly designed frame. Further information regarding outlets, slides, lids and frame designs is available by contacting VRM direct on 1300 366 685

transporter tanks:

1.0 S.G.

product	code	capacity	length	width	total height
transporter tank	CT1420	340Ltr.	650mm	1180mm	674mm
transporter tank	CT1462	600Ltr.	1050mm	1050mm	700mm
transporter tank	CT1460	800Ltr.	1525mm	1200mm	800mm
transporter tank	CT1461	1,100Ltr.	1525mm	1200mm	1070mm

Please note that all dimensions are nominal.

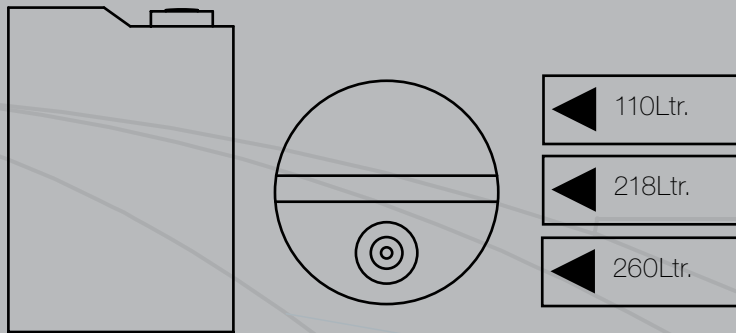

The range of transportation tanks are suitable for the storage of liquids with a S.G. rating of 1.0. Rectangular tanks can be strapped to the trailer or utility for easy transportation of stored liquids. The tanks come standard with lid. Fittings are to customer's specifications.

closed head drum:

1.6 S.G.

product	code	capacity	diameter	total height
closed head drum	CT1605	110Ltr.	495mm	675mm
closed head drum	CT1606	218Ltr.	590mm	865mm
closed head drum	CT1607	260Ltr.	590mm	1040mm

Please note that all dimensions are nominal.

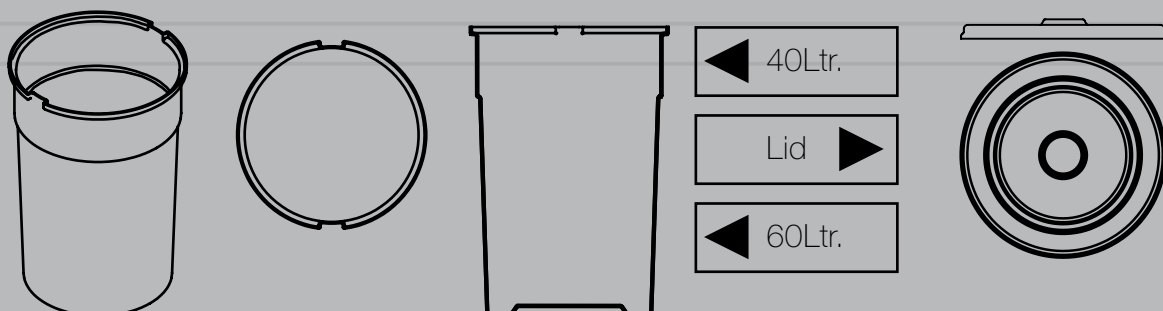

Ranging from 110Ltr. to 260Ltr. Closed head drums offer a freestanding unit to store liquids or powders with a S.G of 1.6. Drum comes standard with screw cap and plug.

nesting drums & lids:

1.6 S.G.

product	code	capacity	diameter	total height
nesting drum	CT1640	40Ltr.	430mm	460mm
nesting drum lid	CT1641	-	440mm	40mm
nesting drum	CT1643	60Ltr.	490mm	450mm
nesting drum lid	CT1644	-	520mm	45mm
nesting drum	CT1647	115Ltr.	532mm	710mm
nesting drum lid	CT1649	-	552mm	60mm
nesting drum	CT1648	215Ltr.	635mm	920mm
nesting drum lid	CT1653	-	670mm	60mm

Please note that all dimensions are nominal.

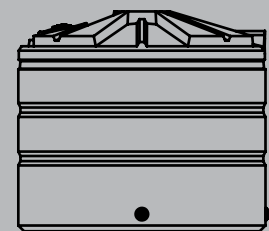

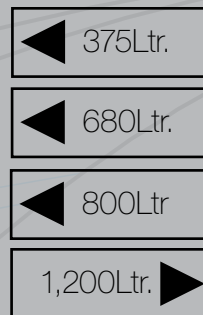

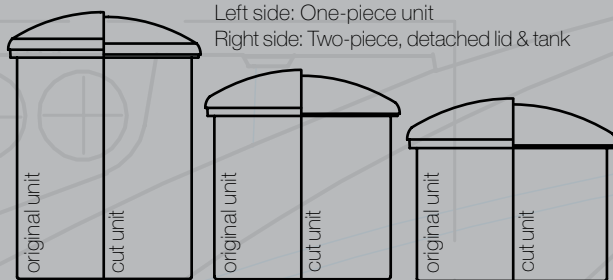

Nesting drums offer a storage solution that is nestable for economical freight and storage and capable of housing properties with an S.G. up to 1.6. Compatible lids are available.

circular tanks:

1.6 S.G.

product	code	capacity	max diameter	total height	lid height
circular tank (detached roof)	CT1270	375Ltr.	950mm	615mm	190mm
circular tank (detached roof)	CT1266	555Ltr.	950mm	915mm	190mm
circular tank (detached roof)	CT1268	680Ltr.	950mm	1115mm	190mm
circular tank	CT1264	495Ltr.	950mm	845mm	-
circular tank	CT1272	680Ltr.	950mm	1150mm	-
circular tank	CT1276	800Ltr.	950mm	1345mm	-
circular tank	CT1200	1,200Ltr.	1300mm	1300mm	-

Circular tanks provide storage with a S.G. rating of 1.6. They are a self-contained unit moulded with the lid in place but offer the option of having the lid removable.

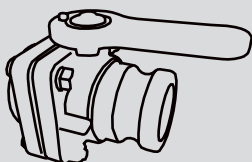

chemical fittings:

Listed below are groupings of the most popular fittings.

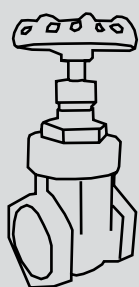

- If you require a fitting not listed here, please contact the team at VRM for further assistance.
- Note: If the storage vessel is to be used with a corrosive material, it is the purchaser's responsibility to specify any critical requirement of the fittings being supplied. This is particularly important when fittings contain seals and o-rings that must have a specific chemical resistance.
- Chemical fittings material specifications are available upon request.
- Fittings warranted under manufacturer's specific terms, for more details contact VRM direct.
- The fittings in the tables below fall into three categories of suitable application: 'W' represents suitable for the storage of water, 'C' represents commercial application & 'Ch' represents fittings with a chemical resistance.

Banjo Stubby

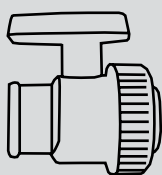

Part No	Description	Water	Commercial	Chemical
23TF0082	Stubby Composite Ball Valve Full Flow - 50mm (2")	✓	✓	✓
23TF0079	Stubby Composite Ball Valve with Camlock - 50mm (2")	✓	✓	✓
